DETAILED ACTION

Claims 1-13 are pending.

Election/Restrictions

Applicant's election without traverse of Group I, claims 1-13 wherein X= SO₂ and Y=CO in Paper No. 3 is acknowledged. Claims 1-13 will be examined to the extent they embrace the elected subject matter. Applicant is reminded again that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-13 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

1. Claims 1, 5, 8, 11 are indefinite as these claims recite " L¹, L², and L³ represent methane groups, wherein the methine groups may combine to form a 5 or 6-membered ring when m is equal to or >1" . It is not clear how when m is equal 1, a 5 or 6-membered ring be formed given the fact that a methine is a CH group. Furthermore, when m>1 if a methine groups are combined to form a ring how

would one retain conjugation to D is not clear. Note formation of the ring should involve the double of the methine group and if the double bonds are used for the ring formation there will not be any conjugation. Claims 1-13 are rejected, as they all need the above said scope of "L¹, L², and L³.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-4, 6, 8-9 and 12 are rejected under 35 U.S.C. 102(b) as being anticipated by Davis et al. US 6,057,329.

Davis et al teaches a benzothiazine compound as intermediate which is also claimed in the instant claims. See example 116 on column 53. See also the CAPLUS Abstract provided for the structure.
